

# Accountability Quick Start Guide

Here's a simple five-step process to get unstuck and gain momentum towards your goals:

## Set a Vision

What's one area of your life you want to grow in? Your health, your career, your relationships, your faith? Even better if you have a specific goal in mind.

*I want to get in shape. I want to run a 5K.*

## Break it Down

Pick **one small habit** that will help move you towards this goal. The goal here is to start momentum. You can always increase the difficulty later on.

*I'm going to go to the gym five times this week. I don't even have to work out, I just have to go there.*

## Get an Accountability Partner

Ask one friend if they can help you. Specifically:

*"I'm trying to get better at \_\_\_\_\_, so to do that, I'm going to \_\_\_\_\_ every day/week. Can you help me?"*

Ask them to: (1) put a reminder on their phone to check in with you once a week and ask you (2) how the week went and (3) what you're planning to do differently next week.

## Track It

**1. The Analog Way:** Print out a [calendar](#) and hang it on the wall. Check off each day that you complete your habit.

**2. The Digital Way:** Download [Lattis](#). Set up a single goal, add a single habit to your goal, and invite a friend to a group to track it. You can do this for free for 30 days.

## Dial it In

At the end of the week, ask yourself two questions:

1. Is this habit moving me towards my vision?
2. Is this habit too easy or too hard?

Send your partner a message letting them know (1) how you did and (2) what you'll change to improve next week.
